Avoiding roaming charges with Callback

When travelling abroad, Callback provides a useful tool to avoid mobile roaming charges. For example, while travelling to Indonesia you can divert calls to an Indonesian landline. When making a call using Callback, the smartnumbers cloud calls the Indonesian landline then dials the intended recipient. The charge is calculated by combining the charge for each leg.

The charge in this example is calculated by a call to the Indonesian landline (12.5p) plus the charge for making a call to a UK landline (1.5p) so the total call cost is 14p per minute.

\* The charge for Callback calls between selected international destinations and UK landlines, mobiles and 03 numbers have a total charge of 5p rather than combining the individual call legs.

\*\* The charge for Callback calls between selected international destinations and UK landlines, mobiles and 03 numbers have a total charge of 10p rather than combining the individual call legs.
